

Tips for Success:

Signing Up for Knox County Health Dept (KCHD) COVID vaccines online

Google "Sign Up Genius" and create an account AHEAD OF TIME. That way your information is already in the system. EACH PERSON NEEDS THEIR OWN ACCOUNT. Do that before the sign up is announced.

To sign up two individuals for a vaccine, you must use two separate computers or laptops or browsers (Safari, Goggle Chrome, Firefox etc).

On the day of sign-up. When you are waiting for appts to open on the Knox County Web Site in the Vaccine Information area, the "make an appt" box will appear when sign up opens. It will say it is "closed" up until the time designated. Just close that pink pop up box saying "appts are closed" and wait about half way down the page.

Once the "make an appt" box is there, click on it, and Sign up Genius KCHD Covid 19 Vaccine Registration comes up. Don't read all the information right away! Get your appts first! Scroll all the way down the page until you see dates and times to sign up. Choose a later time farther down the page, they don't fill up so quickly.

Once you have an appt, it will say congratulations and you must print that page for confirmation. You will also receive a second confirmation email on your computer, you can print that also. At that point, you can read the other information about location, and date of vaccination clinic you have signed up for.
